## Rolls-Royce 25/30 Funeral Fleet finished in black & burgundy

Built between 1936 and 1938 the 25/30 was Rolls-Royce's update to the 20/20 model. The saloons seat four passengers all in the rear, with two on the back and two on occasional seats also in the rear, behind the driver. The hearse was built for a London funeral director before being exported to North America where it was part of a private collection. It returned to the UK just after the Millennium.

*Rolls-Royce 25/30 hearse*

Driven by a uniformed chauffeur for up to three hours (from leaving our funeral home to returning)  
Excess time will be charged at **£50.00** per hour.

## Rolls-Royce Phantom VI Funeral Fleet finished in black

Based on the flagship Rolls-Royce Limousine chassis built from 1968 – 1990 all our examples have the coachbuilt Mulliner Park Ward bodies. The limousines seat six passengers, with three on the back row, two on the occasional seats in the rear, and one beside the driver in front of the glass division. The hearse and one limousine were built by Ginns & Gutteridge in Leicester, and were part of the fleet that assisted with the funeral of Diana, Princess of Wales. The same type of car has been part of the Royal Fleet from its introduction.

*Rolls-Royce Phantom VI hearse*

*Rolls-Royce Phantom VI limousine*

Up to five passengers in the rear, and one in the front.

### ***Rolls-Royce Phantom VI Hearse***

## Horse Drawn Turnouts

Each turnout travels with the hearse and team of horses to our funeral home for any specific funeral, includes our handling of the booking, travelling to our premises, the assistance of staff if required, and settlement of these suppliers invoices in advance when required. Different coloured drapes, plumes and tack can be selected at the time of arranging and some examples are shown below. All turnouts are subject to availability as teams of horses may be limited. A single horseshoe will be provided with all turnouts as a keepsake.
